

Formål med materialet

I dette materiale træner barnet de grundlæggende teknikker i forhold til visuel opmærksomhed, billedmatch, form-og farvegenkendelse, mønsterdannelse og størrelser.

Barnet lærer dermed at forbinde to ens billeder med en streg, at klippe og lime og at opdele billeder efter størrelse. Når barnet mestrer disse grundlæggende teknikker er det klar til at arbejde videre med Kluddermors temamapper.

Målgruppe

Materialet henvender sig til førskolebørn, samt specialundervisningen, og er velegnet til selvstændigt arbejde eller mindre børnegrupper med behov for ekstra støtte.

Anvendelse

Print ud i det antal sæt du behøver og sæt papirerne i mapper, eller hæft siderne sammen.

Lad børnene arbejde selvstændigt eller to og to.

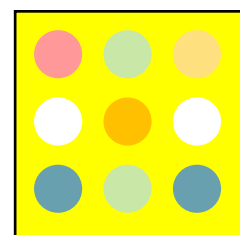

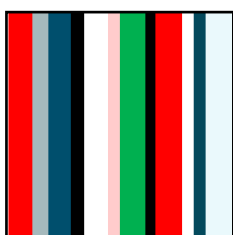

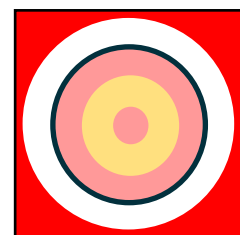

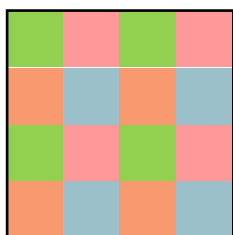

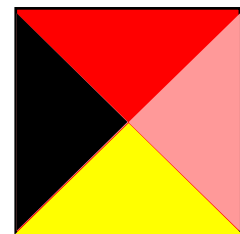

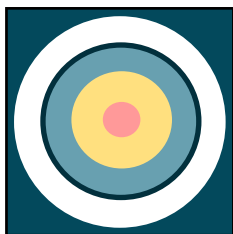

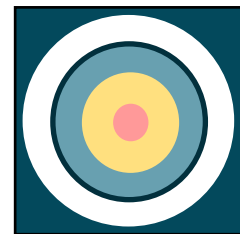

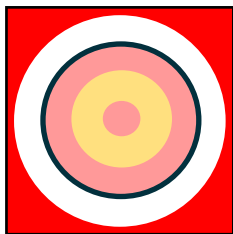

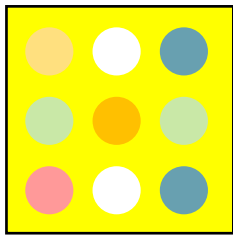

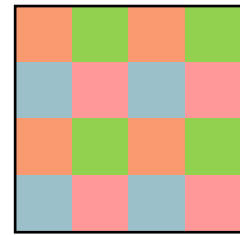

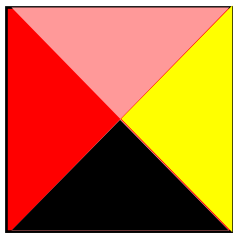

Efter opgaverne er løst kan børnene evt. bytte indbyrdes og tjekke hinandens svar.

På denne måde sker der fornyet læring.
